

Directions: After using the rubrics to self-assess and having a conversation with your advisor, please write a self-reflection on your personal growth and challenges within the advisory program and school community. Begin with the prompts below to write your self-reflection.

Prompts for reflection:

1. How has advisory helped you gain skills to become a better learner?
2. How have you become a better community member both in advisory and in your classes?
3. How has advisory motivated you or given you the confidence to take on leadership roles within your advisory group and/or community?
4. How has advisory helped you plan for college or career?
